

Trainings

The most efficient access to CKEditor knowledge base

Range of service

Trainings provide specialized lectures and workshops on various subjects ranging from crucial development to application usage.

Service features

- Online and/or onsite training sessions.
- Access to exclusive training material.
- Sessions tailored to your specific needs.
- Certificate of participation.

Result of service

Lectures and workshops give developers an increased knowledge of CKEditor:

- Deep customizations.
- Additional add-ons.
- Integrations.
- Features on demand.
- Customized solutions.

Stages of service

Lectures & workshops based on a predefined set of topics offered to scheduled work groups:

- **Introduction** - installation, configuration and integration.
- **Deep Dive** - getting ready to create new features and perform advanced customizations.
- **First Line Support** - preparing customer support technicians on how to handle end users reporting basic issues related to CKSource products.
